MEMORANDUM FOR: AFICO-8
Headquarters USAF

ATTENTION : Colonel Leo P. Geary

SUBJECT : Status of the ARC-50 Installation
in KC-135

1. In order that planning may proceed for the testing of the ARC-50 system and the training of users, a current equipment installation status board is maintained. As an example, we now have three articles equipped with ARC-50 as well as a ground station installed

2. Since the liaison with SAC regarding KC-135 installations is not handled through [redacted] channels, we cannot keep a finger on the status of these installations. It is therefore requested that we be brought up to date on the status of the ARC-50 installations and maintenance agreements for the KC-135's.
